

Infrastructure Edge

State offers robust logistical and industrial infrastructure

Vast Road Network

State has vast network of 3,15,404 km with road density of 333.5 km per 1000 sq. meter with 17 National Highways and 2 Asian Highways

Excellent Air Connectivity

Two international airports at Kolkata and Bagdogra and private sector greenfield airport at Andal, West Bardhaman

Extensive Waterways

Navigable waterways with 950 km (~30% of country's navigable inland waterways) & 13% of national coastline. Oldest maritime infrastructure with two major ports at Kolkata and Haldia. Upcoming deep seaport at Tajpur shall strengthen the logistics infrastructure in the state.

Huge Railway Network

Rail density with ~4000 km of railway tracks and has 2nd largest metro rail network in the country

Numerous Industrial Parks

200+ industrial parks have been established across the state over 15,000 acres of land

Power Surplus State

State generates over 10,000 MW of power. Of this, 18% is generated from non-conventional sources such as hydel and solar

Warehousing & Storage Capacity

Largest warehousing capacity in eastern India with over 2.4 million tonnes capacity. The state is a national leader in cold storage capacity of 7.98 million tonnes

Significant no. of MSMEs

Bengal has one of the highest number of MSMEs and it is home to highest number of women entrepreneurs (23%) in the country

Paving way to Socio-Economic Development through Economic & Industrial Corridor

WEST BENGAL INDUSTRIAL & ECONOMIC CORRIDORS

▶ **Three industrial & economic corridor** – Tajpur-Raghnathpur (398 km), Dankuni – Kalyani (43 km) & Dankuni - Jhargram (60 km) are coming up in the state

▶ **Equipped with world class infrastructure** - Connected with Tajpur Deep Sea Port, it would be equipped with multiple economic regions, efficient connectivity & complementary infrastructure like logistic parks, townships along with other urban amenities

▶ **Boost to industrial activities-** This shall support development of port-based industrial clusters in and around Haldia and upcoming Tajpur port

Skills Infrastructure

West Bengal is home to various R&D centers, capacity building institutions & incubation centers. These institutions play a pivotal role in harnessing the skills of its workforce
